SUMMARY

I am a results-driven Web Developer with a solid foundation in designing, developing, and maintaining responsive websites and web applications. With expertise in a variety of front-end and back-end technologies, I excel at quickly learning new concepts and collaborating within teams. My commitment to delivering high-quality web solutions ensures that I tackle complex challenges effectively.

EXPERIENCE

Web Developer Intern | Plasmid Innovation LTD – Bengaluru (06/2025 – 08/2025)

- Gained hands-on experience in frontend development using HTML, CSS, JavaScript, and Bootstrap.
- Designed and developed responsive web pages with a focus on user-friendly interfaces.
- Implemented form validation and interactive features using JavaScript.
- Built mini-projects to strengthen concepts and deployed websites using Netlify.
- Enhanced skills in debugging, responsive design, and clean code practices.

EDUCATION

- **B.Tech in Computer Science and Engineering** | D. Y. Patil Technical Campus, Talsande (11/2022 – Present) **CGPA**- 8.1
- **Higher Secondary Certificate (HSC)** | Krishna Mahavidyalaya, Rethare Bk (06/2021 – 04/2022) **Percentage**-77
- **Secondary School Certificate (SSC)** | Sou. Tarabai Madhavrao Mohite Vidyalaya, Rethare Bk (06/2019 – 04/2020**) Percentage-** 92

CERTIFICATION

- Python and Flask Framework Complete Course – Udemy
- Data Structures and Algorithms using Java – NPTEL

SKILLS

Frontend: HTML, CSS, JavaScript, Bootstrap, React.js, Tailwind CSS, Next.js
Backend: Python, Express.js, Flask, Node.js, Rest API
Others: MongoDB, Firebase, Git, GitHub, Postman, Netlify, Vercel, Visual Studio Code

PROJECTS

FitBuddy

- Developed a personalized fitness and health tracking application providing tailored workout and diet plans based on user metrics.
- Integrated Google's Gemini API to power an AI chatbot for fitness and nutrition queries.
- Utilized Firebase Realtime Database for data storage and Firebase Authentication for secure user management.
- Implemented data visualization using Recharts to display metrics like BMI.
- Designed a user-friendly interface with responsive components.

Chat App

- Engineered a real-time chat application using Firebase Realtime Database and Authentication.
- Developed core features, including one-to-one messaging and user message seen status indicators.
- Styled the application with Tailwind CSS for a modern user interface.
- Includes user authentication for secure messaging.

GitHubExplain

- Created a tool that analyzes GitHub repositories by generating a VS Code–style file tree.
- Integrated an AI chatbot that explains the repository's files and functions.
- Leveraged the Octokit library to interact with the GitHub API.
- Enabled interactive navigation of the file tree and viewing of code snippets.
